Accurate, Efficient Coding
For Optimal Reimbursement Under PDPM

VIRTUAL CODING SERVICE: HOW IT WORKS

- Expert certified coders receive notification of an admission via EMR and/or email

- Coders examine available hospital documentation, medication list, physicians' notes, etc. and code directly into SNF's EMR diagnosis list via virtual secured access within 24 hours

- SNF enters suggested principal, secondary or co-morbid diagnoses into MDS

Cost: $65/hour*

*Facility determines one-time review **or** multiple chart reviews. *him*agine averages 3 charts/hour; may vary based on documentation availability and direct access to code in EMR.*

*"Now that **him**agine is doing our coding, our MDS Director has peace of mind, and nursing spends more clinical time with residents. It's a win-win!"* – NHA, HealthPRO® Heritage SNF Client
